

## Help in WEAVE

If you are confused about what to do and where to go in WEAVEonline, they do offer a Help menu that should answer most of your questions.

The screenshot shows the WEAVEonline web application interface. At the top, the browser address bar displays 'app.weaveonline.com/default.aspx'. The page header includes 'Texas A&M University' and 'Darby Roberts'. A navigation menu contains 'Home', 'Assessment', 'Mapping', 'Search', 'Reports', and 'Logout'. A 'Help' button with a question mark icon and the number '1' is highlighted. Below the navigation, there is a 'Cycle and Entity Selection' section with dropdown menus for '2013-2014 (Current)', 'Student Leader Learning Outcomes (SLLO)', and 'Texas A&M University'. The 'Local News' section features a 'Deadlines' subsection with the title 'Assessment Timeline for Academic Year 2013-2014'. The timeline includes: 'November 1, 2013: Update assessment plans (mission, outcomes, and measures with achievement targets). Associate with Academic Master Plan Outcomes.', 'August 1, 2014: Findings Entered', 'September 1, 2014: Action Plan(s) and Achievement Summary/Analysis Questions Entered', 'Please update all Action Plans', and 'October 1, 2014: Assessment Cycle Closes'. To the right of the text is a circular diagram illustrating the WEAVE cycle: 'Write expected outcomes/objectives', 'Establish criteria for success', 'Assess performance against criteria', 'View assessment results', 'Effect improvements through actions', and 'Capture an assessment and planning cycle in which you...'. The WEAVE logo is centered in the diagram.

1. When you click on the Help button, you will have several options to choose from: Help for this Page, Getting Started (which will reveal Quick Start Guide, WEAVE Tutorial, and Adding/Editing in a New Cycle), WEAVE Admins (which you can ignore), and FAQs and Other Info (which will reveal WEAVEonline Glossary, Technical FAQs, Release Notes, and Editing DAR in Word Formats). These instructions can be very helpful and provide step by step instructions on how to work within the WEAVEonline system.
